Brad,

While things are still fresh, we asked Mike K. to try to assemble a chron for the 1/6/21 events. This is still a rough draft but I'm passing it along in case it's of use to the Department after the DAG and I are gone tomorrow.

Thanks,

Rich

(U//FOUO) The following list of events is being maintained per request of WFO Executive Management. The items on this list are compiled by FBI partner agencies. FBI WFO does not have any information to suggest these events will involve anything other than first amendment protected activity and is being distributed for situational awareness. Their inclusion here is not intended to associate the protected activity with criminality or a threat to national security, or to infer that such protected activity itself violates federal law. However, based on known intelligence and/or specific, historical observations, it is possible the protected activity could invite a violent reaction towards the subject individual or others in retaliation or with the goal of stopping the protected activity from occurring in the first instance. In the event no violent reaction occurs, FBI policy and federal law dictates that no further record be made of the protected activity.

The following information is current as of 3 January 2021 at 0800. This is for FBI internal use only.

(U) EVENT OVERVIEW:

(U//LES) A review of open source, law enforcement, and liaison information suggests a sizable number of people plan to attend a series of loosely affiliated rallies in Washington, DC on 6 January 2021. Counterprotestors are aware of many of these plans and continue to organize events in opposition. To date, FBI Washington Field Office (WFO) is tracking four predicated domestic terrorism subjects traveling to the AOR for unknown purposes as well as a collection of unsubstantiated reports of threats to the city, protest participants, and/or US Government officials.

Morning Jen and Matt,

██████████ and I were talking this morning and hoping you can give us some direction for the sit reps. As you are both aware during the last event we were inundated with requests from both external partners and internal FBI entities asking to be included on the sit rep distro, seeing as this event is gaining a lot of attention from the USIC, what is our posture for including outside WFO entities in the sit rep distro?

Also FYI on social media - hopefully everyone is aware that the social media tool contract expired on NYE and was awarded to a new company who utilizes the tool called ZeroFox. So far we've been able to get accounts and currently working with the PMs at HQ to get key word searches going on the tool. All this to say, our social media abilities might be slightly degraded during this event as we are getting use to this new tool but we're gonna make it work 😊

Thanks,

Sorry George. On leave this week so trying to disconnect a little. Here is what he have.

This week's events will mirror what has happened the past two months. The same groups seeking permits and the same counter groups (with affinity groups) will attend with largely the same desires and actions.

1/5/2021:

Freedom Plaza: Cindy Chafian, permit holder 1300 - 2000hrs. 5000+ on NPS permit application (will not get) (analysis: This is a group that has splintered from the original Woman For America First (MAGA) group. She will not get the numbers she wants and this event will be smaller and less well attended. Its' time (after dark) will have possible consequences for violence as we have seen the past two months).

to respond (NFI).

3. (U//LES) As of January 2021, the participants of the 'Stop the Steal' protest on 6 January 2021 in Washington, District of Columbia, established the QRF in the Rosslyn, Virginia, area. An identified USPER, who led the identified Virginia militia group, communicated that people should bring mace, flash lights, body armor, and head protection. Members of the protest believed Rosslyn to be a safe area for them. (FBI comment. The 'Stop the Steal' protest was likely the protest against the Electoral College certification.) Participants were aware of the prohibition on firearms in Washington, District of Columbia, so they planned to establish an armed presence outside the city to respond to 'calls for help'.
